

## ASME Student Innovation Prize 2021

Project Specialty	Location	Incentives
N/A	Online	National Prize, CV building

### Details

The Junior Association for the Study of Medical Education (JASME) is a career group within ASME for medical students. One of its key goals is to encourage, promote and conduct medical education research initiated by students. Therefore we are pleased to offer one award each year to medical students for innovation in the field of medical education. The awards are to encourage and reward students who show imagination and enthusiasm for developing new ideas in medical teaching or education.

#### Deadline for application:

29/01/2021 5pm

#### Applicant criteria:

#### How to apply
